<b>TITLE/SUBTITLE</b>	Space
<b>DEVELOPMENT STATUS</b>	Available for hire
<b>OTHER PARTIES</b>	
<b>DATE OPEN</b>	November 2002, refurbished 2008
<b>SIZE</b>	400 sqm
<b>DESCRIPTION</b>	Capturing the spirit of wonder and enquiry that has characterized humans gazing at the heavens for thousands of years, <i>Space</i> explores the quest for knowledge and understanding of the universe in which we live. Visitors are able to explore our place in the universe and some of the methods we have used to explore its farthest reaches.
<b>CONTENT</b>	The exhibition explores the science and technology that humans have used to explore our solar system. From landing the space shuttle and driving a remote controlled vehicle on the surface of Mars to the stunning images collected by space craft and satellites, visitors are able to experience the how and why of space exploration.
